

ATTENTION PUBLIC NOTICE

Trolley Line #9 Trail Closure 3/11TH – 3/29TH

Oella Ave to the Private Driveway

A section of the trail on Trolley Line #9 will be closed for construction from approximately March 11, 2024 to approximately March 29, 2024. The section is approximately ¼ mile in length between Oella Ave and the private driveway to the south. This will be a full closure with no access to the public during the construction. Construction crews will be active 7 am to 5 pm on weekdays and 9am to 4pm on Saturdays, and not on Sundays.

This project to repair Bridge B-0771 has been under design for several months and was originally scheduled for the summer of 2024. Due to damage from recent storms which increased deterioration of the slope near B-0771, this project was moved up in order to stabilize the culvert headwall and adjacent slope.

The project consists of site prep work, stabilizing the slope with soil nails and concrete, and placement of riprap at the bottom of the slope. This operation will require the use of heavy construction equipment and no public access will be permitted during this time frame.
